

A WINE FOR THE SUMMER? SOAVE CASALFORTE, A WAVE OF FRESHNESS AND DELIGHT

As we all know, summer menus become *light*; fruit, vegetables and cold dishes become the main focus of our tables and we prefer fresh, mineral white wines that accompany these flavours and delight the palate. Cantine Riondo presents Soave Doc Casalforte, pure Garganega grapes, from which a refined, dry, elegant and intense wine is made.

Cultivated in the east of Verona, in the area of Colognola ai Colli, the Garganega vines thrive on calcareous soil. This soil has unique characteristics that make it extremely fertile and an ideal location for the vines. The grapes are processed along a short and controlled production chain. They undergo a short, cold maceration, fermentation at 18° and then refinement on the lees at 8° for around three months.

The result is immediately recognisable. Soave Doc Casalforte is a full-bodied wine with pleasant acidity, savoury and mineral on the finish, with delicate aromas of white flowers and exotic fruit, excellent with fish dishes and grilled white meats.

Casalforte is the Riondo Winery's premium line. Cantine Riondo is a subsidiary of Collis Veneto Wine Group, which brings together 2000 winegrowers from the provinces of Verona, Vicenza and Padua. From bottling to sales, the Riondo Winery selects the group's best production for sale in six different product lines in Italy, Europe, the USA and Asia.

The high quality of Casalforte wines is demonstrated by the numerous national and international awards, which year after year honour the care taken in the vineyard by a staff of agronomists and in the cellar by a team of oenologists. The most awarded wines include Amarone della Valpolicella, Valpolicella Ripasso and Pinot Grigio delle Venezie.

CANTINE RIONDO SPA

A full subsidiary of the Collis Veneto Wine Group cooperative, Cantine Riondo was founded in 2008 as a company dedicated to the sale of wines produced by Collis, with grapes supplied by Cantine dei Colli Berici and Cantina di Colognola ai Colli, first-level cooperatives. The organisational model proved to be a success from the outset and in just a few years the company was able to reach important milestones. It distributes to the hospitality industry and large-scale retail trade in Italy and worldwide, with six brands that identify different varietal lines of the best DOC and IGT production from Veneto.
